DESCRIPTION: A Merlot with body, but soft on the palate with pleasantly fruity notes: a wine that is strong but easy to drink, suitable for those who love the decisive flavours of stronger reds. Its intense ruby red colour already influences the taste, as well as the complexity of its olfactory notes: what stands out is undoubtedly the fruity component of maraschino cherries and berries.

Merlot is a versatile wine that is both smooth and balanced and pairs well with similarly decisive flavours like salami, meat, roasts and game, as well as semi-mature and mature cheeses. A pairing to try? With chicken croquettes.
